

Regina Actress Pleased To Be Chosen For Stratford Festival

LONDON. — Regina actress Frances Hyland said she thinks it's "absolutely magnificent" that she will be appearing at the Stratford Festival this summer with James Mason. "I'm just on my way down to arrange my liner passages," said Miss Hyland in a telephone interview from Liverpool, where she is expected to arrive on June 14. "I'm going to be in the Christopher Fry play 'The Dark Is Light Enough'."

Miss Hyland, 28, expects to sail in mid-July. She will visit her mother in Regina—It will be her first trip home since she made her debut four years ago—and arrive at Stratford after a week's tour.

The slight, blonde actress was trained to play the female lead opposite Mason in "Measure for Measure" and other productions at the second Stratford festival in July and August.

She thinks she will leave the rest of the Fry play the last week in March, before he arrives at London's West End. "They are looking up for someone to take my place," Miss Hyland said.

Mountain View Lady Wins Silver Cup

MALDEN, Alta. — At the annual session of the Redbank Amateur Golf Association, held at the golf course in Malden, a member of the Mountain View Ladies Golf Club won the silver cup for the second time. The winner, Mrs. J. H. Whipple, won the cup for the second time for the second time, having won it in 1935.

The winner, Mrs. J. H. Whipple, won the cup for the second time for the second time, having won it in 1935.

Funny and Otherwise

A man approached a big store and said, "I'm looking for a birthday present for my wife."

"How long have you been married?" asked the floor-walker.

"Ten years," said the man.

"What is the biggest argument in your household?"

"Well, I am not one to nag people and do not disturb them, but when a man always hangs his hat before the lady there is something unusual."

"Can't we ever afford to pay my rent?"

"You didn't see me worried yesterday when I saw you sitting on the sofa eating a 'meatball cake'."

"Did it go as good as the brand I normally use?" he asked.

"Well, your brand is superior. It's a kind of superior equivalent."

"This is the most difficult I ever played on."

"You left the concrete foundation up, air," replied his wife.

"The family were objecting to the fact that the house was built on a hill."

"I'm sorry, dad," said the boy.

"What's that?" asked the father.

"I'm sorry, dad," said the boy.

"What's that?" asked the father.

"I'm sorry, dad," said the boy.

"What's that?" asked the father.

"I'm sorry, dad," said the boy.

"What's that?" asked the father.

"I'm sorry, dad," said the boy.

"What's that?" asked the father.

"I'm sorry, dad," said the boy.

"What's that?" asked the father.

"I'm sorry, dad," said the boy.

Manitoba's Oil Production Topping 100,000-Barrel Mark

For the third month in succession Manitoba's production of crude oil topped the 100,000-barrel mark. The month's total production was 119,031 barrels, down somewhat from the December high of 114,013 barrels but higher than the November total of 112,013 barrels. In January last year total production was 43,991 barrels.

Up to the end of January Manitoba's total oil production for the year was 1,000,000 barrels. The total of 88,847 barrels in December was the highest monthly production since January 1935.

Cold weather in January as well as a decrease in the number of wells producing, helped to reduce the month's total. The number of wells producing in January was 1,000, down from 1,100 in December.

The number of wells producing in January was 1,000, down from 1,100 in December. The number of wells producing in January was 1,000, down from 1,100 in December.

★ ★ ★ ★

GET A HORSE!—The trotting cam can cover the track at about 100 m.p.h. at a speed of five m.p.h. as number 5, who seems to be leading for last place, puts on a last-minute sprint to win. The "Dress-Do" has been a tradition there since 1880.

AN ORIGINAL—Opera singer Dorothy Wrenschold displays the original Ring hat during Girl Scout Week in Savannah, Ga. Looking on are Scouts Ellen Wilson, (left), and Nora Black, current members of the original troop organized in Savannah 42 years ago.

VERTICAL TAKE-OFF PLANE—The United States new Lockheed XF-106 vertical take-off plane, powered by turbo-prop engines driving contra-rotating propellers, is designed to fly straight up, level off at the desired height and then to track down, tail first. The photo shows Herman R. Salomon, Lockheed test pilot, as he climbs the portable ladder to enter the cockpit. Wheeled framework around the plane is the lift mechanism which hoists it onto its tail to take-off position.

PETER GRIMES of Belmont, Mass. poses in West Berlin with his German-born wife and their two daughters, Monica, 14, upper right, and Evelyn, 11, lower left, after rescuing the girls from their East-Berlin grandfather in East Berlin.

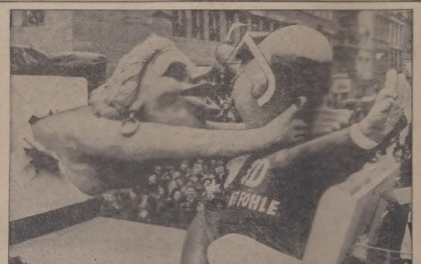

There is no hope for the helix. If you could play in one spot that having a sour note on a for a year and keep looking at trumpet will ruin the tops of the key way, you should see 4,000 instrument. 3000 stars.

SIREN INSTALLED ON POLICE CAB—Members of the Los Angeles, Calif., police force, pictured above, will be closely checking on traffic violators during the next few months. With a siren now installed on Chief Constable Collet's car, speeding in town will be closely checked. Mr. Collet told The Globe. Left to right, above, are pictured members of the police force: Constable F. Godfrey; Chief Constable J. Collet, at the wheel of his car; and Constable A. Rount.

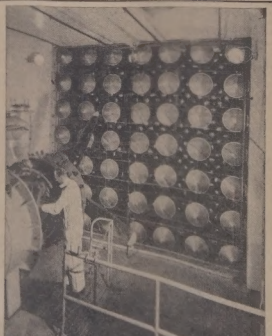

CAR GETS HYDRAULIC LIFT—The tremendous pressure from a broken fire hydrant made this car suspended after it broke off the fire plug in Los Angeles. A few minutes later the car settled down and disabled the hydrant allowing the sewer to climb out wet, but otherwise unharmed.

IF IT WERE ONLY MARILYN—A "movie queen" bursts from the "screen" to embrace a bespectacled D.O. film "viewer" during a parade in Cologne, Germany. The movie of this film was "D.O. With Feeling".

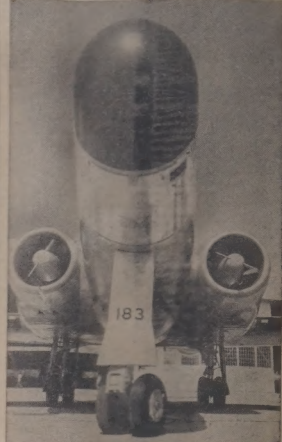

BREAKS SOUND BARRIER—Prince Bernhard of The Netherlands is checked out by Pilot Joe Lynch before they take off in a supersonic jet trainer, which the Prince flew faster than the sound barrier, at Los Angeles, Calif.

A NEW HALF-A-MILLION DOLLAR TEST HOUSE, capable of handling the largest type of prop-turbo or reciprocating aero-engine, as shown in the photo above, is being built by the Bristol Aeroplane Company Ltd., recently. The test cell is a 25-foot tall structure about 100 feet long and 10 feet wide. In the photo above a technician rigs an engine testing. The noise of the cell is the part that does the sound reducing work and the sound heard outside the cell is a mere hum as compared to the roar that an aircraft engine puts out.

Drive With Care!

PUNCH IN THE NOSE—A head-on view of the fighter nose of the latest edition of Canada's all-weather jet fighter, the CF-100, now going into service with the RCAF. The nose houses the automatic radar-detecter and firing system that locates enemy bombers, "locks" on the targets and shoots them.

LITTLE SUCKER—Maryanne Perry of Rochester, N.Y., is a big girl at the age of seven and a half months. Maryanne disregards the bottle and sips and drinks liquids through a straw, an unusual feat for a child her age.

THE AMERICAN WAY—Common sense, not political prestige, determines who needs an umbrella most. While President Eisenhower, (left), walks along in the Washington rain, Press Secretary James Hagerty holds an umbrella for his assistant, Murray Synder, (right), who isn't wearing a raincoat.

TRIPLE-THREAT TOPPER—Imported from Italy is this innovation for mindy's Easter bonnets. The hat, designed by Georgy Hurbule, can be worn three different ways, as shown above. It is currently being shown around Almont, Pa.
